1 Chute Pavilion

a. Cllr Cooper proposed Cllr Morgan be appointed as the 3rd member of the Chute Management Committee seconded by Cllr Rougier.

Cllr Morgan signed the update Chute Management Committees constitution.

b. New storage unit - After discussions Councillors agreed increase costs as per schedule detailing expenditure. They agreed that up to £1300 more could be spent to complete unforeseen expenditure for the gas pipe work & soak away trenching & materials. With the 20% grant payable by the PC plus extras agreed 79.17e re upgraded building the total will now be around £9500.

c. Side grounds re Chute Pavilion. After discussions it was decided that the Parish Clerk will obtain up to date quotes for artificial grass, rubber surfacing & fencing to present to a Chute Management Committee for a decision as it was noted something needed to be done before the weeds started to regrow. Cllr Agnew also agreed to obtain quotes to send to the Parish Clerk to be included on the schedule to be sent to the CMC in order for them to discuss and make their decision.

PM/LA

d. Update re new agreements with tennis club & nursery using the Chute facilities. The Parish Clerk will write some drafts to forward to Cllr Rougier. The Council will then have them checked by a solicitor to ensure they are correct. Need for a further meeting with the Tennis Club noted.

PM/NR

Report Cllr Vaughan

New electric vehicles for Hampshire County Council as it aims to slash fuel costs and save over £200,000 a year

Hampshire County Council has rolled out its first electric vehicles for staff use to help cut fuel and energy costs.

A new electric delivery van and pool car based at Bar End, Winchester, will cost 97% less to 'fuel' than equivalent diesel vehicles. The County Council is also reviewing which other vehicles in its 156 small vehicle fleet could be replaced with electric equivalents – which could save £210,000 every year.

The County Council has already saved nearly £30 million in energy costs over the past seven years after cutting its carbon emissions by 38.1% since 2010. The local authority has now set a more ambitious target to cut carbon from 40% to 50% by 2025.

Councillor Mel Kendal, the County Council's Executive Member for Economic Development, said: "As a publically-funded authority, it's vital that our proposals make economic and environmental sense. The decreasing cost of electric vehicles makes this an ideal time to start replacing our small diesel vehicles – which could dramatically reduce our fuel costs and potentially save over £200,000 a year. Electric vehicles could also save an estimated 400 tonnes of carbon emissions, helping the environment and delivering cleaner air for Hampshire residents.
